

“I established TeslaMall in 2005 in order to provide a complete service for Architects, Designers and Owners with fully customised solutions for the interiors of luxury yachts and fine homes. Prior to setting up TeslaMall I had been involved in the construction and outfit of a 73m Luxury Yacht in the United States. During that time I have sourced many items from my Italian homeland, and formed many strategic contacts.

Combining creativity and resourcefulness I saw an opportunity to assist other clients in designing and creating their own unique interior solutions.

A key element in developing the Company was to establish an E-Commerce presence on the Internet in order to reach a wider clientele – all with the ability to provide custom creations at a click.

Recently, I have introduced my own line of products to market under the TeslaMall name.

TeslaMall prides itself on being able to solve all kinds of challenges for interiors, whether it be creating bespoke chairs or featuring custom lights that match

the marble detailing within a room.

I have been lucky that the renowned, award-winning yacht designer, Donald Starkey, has trusted my company to source and supply many of his projects, both past and present. His confidence in the brand has helped get TeslaMall to where it is today, and to which I greatly appreciate.

We use the highest quality products and customise them in Italy to match exacting owner requirements. We enjoy especially working with wood, fabrics, marble, silver and stainless steel.

TeslaMall provides luxury items which are handmade by Italian artisans, and in some cases using techniques that are hundreds of years old. We had special designs of silk made for upholstery and curtain materials, produced exclusively for TeslaMall, and supplied to a 115 metre Luxury Yacht project currently under construction in Germany.

We are prepared to create your dream. That is why our headline on our websites challenges our clients to imagine something that they need and cannot locate. That is when TeslaMall is at its best in order to create.”

## “Prepared to create your Dream”

Left: TeslaMall Chameleon Lamps in a custom yacht by Alloy Yachts, NZ. Interior designed by Donald Starkey.

Far Left: Bespoke tableware.

Top: Every piece is hand-crafted with passion; luxury spa and beach-wear detailing, made on antique wooden looms dating from 1846.

Far right: A bespoke silk runner with matching place mat being woven in the antique looms.

“At the end of 2008 I decided to create a new line of luxury products combining my designs with the knowledge, experience and tradition of more than a hundred years of wonderful handmade silks by Tessoria Asolana and the passion for details and design of Giovanna Locatelli.”  
 “TeslaMall’s designs create luxury spa and beachwear that are absolutely unique – leaving our clients the possibility to personalise their own combinations of colours and style. The Italian-made range includes accessories for interior decoration such as hand woven place mats, runners, lampshades, bespoke bed spreads and cushions, and we will soon expand to women’s apparels such as bags, beach holdalls, belts and more.”
